Introduction

A range of training and awareness raising courses exist in relation to the issues of mental and emotional health and suicide prevention. This directory aims to highlight those courses which are currently being used in the Northern Locality and are funded by the Public Health Agency through the Northern Area Promoting Mental Health & Suicide Prevention Action Plan to support actions within the Protect Life Strategy.

The directory is divided into 3 areas:

- ◆ Mental and Emotional Courses
- ◆ Suicide Prevention & Intervention Courses
- ◆ Self-Harm courses

Each area is sub-divided into different levels, to help potential participants identify the most appropriate course for their needs.

Level 1 courses aim to raise awareness of the issue, providing a basic understanding of the issue and information relating to relevant support organisations.

Level 2 courses aim to increase knowledge of the issue, signs of developing problems and basic steps towards connecting individuals in need of support to appropriate help.

Level 3 courses aim to build more in-depth knowledge and skills in relation to the issue and how to help / intervene when a person is experiencing an emotional crisis.

Level 3 courses are aimed at practitioners and care givers, and will use role-plays and group work to build skills and confidence. Participants may find elements of level 2 & 3 courses emotionally challenging due to their content if they have been impacted by mental health or suicide issues themselves. Course providers are happy to discuss these issues with anyone with concerns.

Individuals not working with / caring for high risk young people or adults should consider attending Connections or safeTalk in advance of ASIST. Anyone with experience of suicide in the last 2 years may find ASIST emotionally challenging due to the course content.

Supporting Children, Young People & Families Bereaved by Suicide Level 3

Course Description:

This course will give participants the opportunity to understand children and young people's grief and practical ways of how to care for bereaved children and young people. After the training participants should have information on:

- How children and young people develop and understanding of death including traumatic bereavement through suicide
- Techniques on how to support bereaved children and young people
- Supporting the families' grief

Target Group:

This is bespoke awareness raising suitable for a variety of groups of practitioners and interested parties. It would be relevant to different professional groups who are in a position of caring for children and young people i.e. teachers, youth workers, social workers, G.P's and frontline Health Care Professionals. Given the nature of its content, this course would not be suitable for the general public or people who have been recently bereaved.

Fee: Free. A limited number of courses are available for organisations / groups.

Duration: 3hrs minimum
